COMP 4350 Project Iteration 0

Group B ([Doctor-Client Portal Vision](#))

Vision: **(4/4)**
There should be a half-page vision document that explains the overall projects vision including:

- What is the project (1)

- Who is the user (1)

- What is (are) the key feature(s) (selling points) (1)

- No technical details (1)

User stories: **(3/4)**
- 8 to 12 big user stories (2) //1 mark if there are fewer

- detailed stories for 2-3 high priority stories (2) 1

Planning: **(3/3)**
- Stories need to have priority and cost estimations. (2)

- It should be clear which stories are for iteration 1 (1)

Technology choices: **(2/2)**
- A 1 page document explaining the technology stack that is going to be used (1)

- Justification of the chosen technologies (1)

Repository: **(2/2)**

A working GitHub repository with all the above plus the communication logs

- Communication logs, either in GitHub or other tools

- Up to (-5) if GitHub access has issues

Only user stories for 1st iteration have included cost estimations. Detailed user stories should be more informative. You should add more detail in your minutes of meetings such as participants plus some detail information about discussed topic.

Total   **(14/15)**
